

RAJ KUMAR RAM

MERN Stack Developer with a strong foundation in full-stack development, problem-solving, and scalable web applications

📞 9330664357 ✉️ rajkrram93@gmail.com 🔗 LinkedIn 🔗 GitHub 🔗 LeetCode 🔗 CodeForces 📍 Howrah, India

WORK EXPERIENCES

Full Stack Developer Trainee & Intern | Internship

Oct 2025 - Nov 2025

GenZ Educate Wing Pvt. Ltd.

Remote

- Completed 1 month of full-stack development training covering **React.js, Node.js, Express.js, MySQL and MongoDB**.
- Completed **2 months of internship**, developing and maintaining **2 web applications**.
- Built **REST APIs** and worked on **frontend-backend integration**.

Technologies / Skills Used : React.js, Node.js, Express.js, MongoDB, MySQL

Microelectronics Technology and VLSI Design | Internship

Jun 2026 - Jul 2026

Jadavpur University

On-site • Jadavpur

- Gained hands-on experience in VLSI design and digital circuit development using **Cadence Virtuoso, Synopsys, Verilog, FPGA and Microwind 3.1**.
- Worked with **Linux-based EDA tools** for circuit design, simulation, and analysis as part of **VLSI and microelectronics training**.

Technologies / Skills Used : Cadence Virtuoso, Synopsys, Verilog, FPGA, Microwind, Linux, Digital EDA

EDUCATIONS

Jalpaiguri Government Engineering College | Jalpaiguri, West Bengal

2024 - 2028

Bachelors in Electronics & Communication Engineering

CGPA : 7.4

- Relevant Coursework:** DSA, Computer Organization and Architecture, OPP's, Digital Electronics.

Sunrise (ENG MED) School | Howrah, West Bengal

Jan 2022 - Dec 2024

Higher Secondary in PCM with Computer Science

- Relevant Coursework:** Computer Science, Mathematics, Physics, Chemistry, Programming Fundamentals.

PROJECTS

TradeZen | Github

Individual Project

- Developed a **full-stack trading platform** inspired by Zerodha using the **MERN stack (MongoDB, Express.js, React.js, Node.js)**.
- Implemented **user authentication, portfolio management, stock holdings, orders, and trading workflows** with RESTful APIs.
- Built responsive and interactive **dashboard interfaces** for monitoring holdings, orders, positions, and market-related data.
- Integrated **MongoDB for persistent data storage** and designed backend APIs with validation, error handling, and secure data management.

Technologies / Tools Used : Bootstrap, Node.js, MongoDB, React.js, Express.js, FontAwesome, AWS

Wanderlust | Github

Individual project

- Full-Stack Web Application** - Built an Airbnb-inspired accommodation listing platform using Node.js, Express.js, MongoDB, and EJS templating with responsive Bootstrap design.
- CRUD Operations & RESTful APIs** - Implemented complete Create, Read, Update, and Delete functionality for listings with proper HTTP methods (POST, GET, PUT, DELETE) and data validation.
- Database Integration & Error Handling** - Designed MongoDB schemas with Mongoose, implemented server-side validation, and built custom error handling middleware for robust application performance.

Technologies / Tools Used : Node.js, Express.js, MongoDB, EJS, Bootstrap

Blogging Page | Github

Independent Project

- User Authentication & Session Management** - Implemented secure user registration and login with session-based authentication using Express Session, allowing persistent user authentication and session tracking across routes.
- CRUD Operations with MongoDB Relationships** - Built complete Create, Read, Update, and Delete functionality for blog posts with MongoDB ObjectId relationships, enabling users to create, edit, view, and delete their own posts while maintaining author-post associations.
- Protected Routes & Authorization Middleware** - Developed authorization middleware (**isLoggedIn**) to protect routes, ensuring only authenticated users can access dashboard and post creation/editing features, with proper error handling for unauthorized access attempts.

Technologies / Tools Used : HTML, CSS, EJS, Node.js, Express.js, Express Session, MongoDB

SKILLS

Databases :

MySQL, MongoDB

Frameworks & Libraries :

Node.js, React, Tailwind CSS, Bootstrap, Express

Languages :

English, Hindi, Bengali

Programming Languages :

C++, Java, JavaScript

Soft Skills :

Problem Solving, Team Collaboration, Adaptability, Time Management

Tools & Platforms :

Git, Github, Vercel, Supabase, Linux, Postman
